WEBINAR LECTURERS

Adam PARNELL

Director
CHIRP Maritime

A professional mariner all his adult life, Adam spent 26 years in the Royal Navy before spending 8 years ashore as a harbour master on the UK's south coast. In 2021 Adam joined CHIRP as their Director Maritime, and now heads their global maritime safety programme.

Capt Nikos CHRYSOMALLIS

Compliance Manager
Tsakos Group

Capt. Nikolaos Chrysomallis graduated in 2002 from Merchant Marine Academy of Aspropyrgos. Following a consistent, ten years onboard career on Tanker Vessels in a Greek reputable Company, he joined as DPA & HSQE Manager a newly introduced Tanker Management Company with the aim to also facilitate her new building program consisting of 10 Suezmax Tanker Vessels and 2 VLCCs. In 2018, Capt. Nikolaos joined Tsakos Group, assuming the responsibilities of Deputy HSQ Manager supporting MTA (Maria Tsakos Academy) training scheme as well as instructor for incident investigation and Risk Assessment MTA courses. Holder of Master's A License, in 2022 he also completed his MBA in Shipping from Alba Graduate Business School. In 2023, he was appointed as Compliance Manager of Tsakos Shipping and Trading, having extensive knowledge, practical and hands on experience in incident & casualty investigations gained from his ashore roles, for more than a decade.

Capt. Christos ANTHOULAKIS

Safety & Quality Manager
DPA / DMR / CSO
Thenamaris ConBulk Inc.

Cpt Christos Anthoulakis studied at the Merchant Marine Academy for Deck Officers at Aspropyrgos, and between 1994 and 2011 served onboard Dry Bulk, Tanker and Product carrier vessels, as deck officer. In 2011 he began occupying positions ashore in the field of Safety & Quality Department. From 2011 to date, he has been a Marine Superintendent, DPA, CSO, Safety & Quality Manager at a leading shipping company.

WEBINAR Outline | Learning Objectives

The Voluntary Incident Reporting Platform is a dedicated resource used by 38 HELMEPA member managing companies for the anonymous sharing of 'lessons learned' from over 1,400 incidents and near misses uploaded to date.

Overview of Maritime global safety trends

This presentation holds up a mirror to the maritime industry and asks whether we really learn the lessons from past incidents.

What are the factors that stop us improving maritime safety, and what can be done to improve the current status quo?

Incident investigation, analysis & causal reasoning: a practical approach

The course provides insight of the fundamental concepts and principles of incident investigation process with a practical approach. Considering Human & Performance influencing factors at incident management, this course aims at optimizing the learning process following an incident. By emphasizing the 5 principles of Human Performance, this course aims at the empowerment of safety culture as well as the essential skills of people involved to an effective incident investigation and analysis that targets to reduce further emerging risks and avoid reoccurrence of unsafe acts or behaviors, by suggesting the most applicable preventive actions.

The Value of Good Bridge Team - Pilot Communication

The session provides an overview approach to incidents occurring under pilotage and includes the following:

- Master/Pilot interaction and exchange
- Challenging ineffective communication
- Responsibility and authority of the pilot
- Bridge Resource Management
- Case studies

Incident Analysis: Sharing Lessons Learned

28 March 2024
