- | | |
|---------------|--|
| 10.00 – 10.40 | Risk management for
hazardous activities on board |
| 10.40 – 11.20 | Safe planning and conducting
SIMOPS on board |
| 11.20 – 12.00 | Situational awareness and
weak signals |

WEBINAR Outline | Learning Objectives

Risk-based approach for SIMOPS and other hazardous activities on board

The presentation provides a comprehensive framework for attendees to grasp the essential concepts, strategies, and best practices related to risk management in hazardous activities and the safe conduct of simultaneous operations on board maritime vessels.

Situational awareness and weak signals

The presentation provides attendees with a comprehensive understanding of situational awareness, including its levels, influencing factors, detection of weak signals, and strategies for maintaining and recovering SA in maritime environments.
