

WEBINAR

15 April 2026 | 10:00 - 12:00 EEST

Incident Analysis: Sharing Lessons Learned

10.00 - 10.30 **Beyond Human Error:
A Safety-II Approach to the Impact
of Technology and Listening to Seafarers**
The Nautical Institute

10.30 - 11.50 **Incident investigation, analysis,
and sharing: A practical approach**
Tsakos Shipping and Trading SA

11.50 - 12.00 Q&A

Addressed to crew officers (deck & engine) and office personnel of HELMEPA Member companies

Level of knowledge

**Beginner to
Intermediate**

Participants will receive a HELMEPA Academy Certificate of Attendance

supported by

2026 REFRESHER TRAINING PROGRAM

WEBINAR OUTLINE | LEARNING OBJECTIVES

Beyond Human Error: A Safety-II Approach to the Impact of Technology and Listening to Seafarers

By the end of this session, participants will be able to:

- Introduce Safety-II principles in shipboard operations
- Highlight gaps between design intentions and operational reality
- Share insights from the STEER project on technology risks and opportunities
- Examine technology impacts on decision-making, workload, and situational awareness

2026

REFRESHER TRAINING PROGRAM

Incident Investigation, Analysis & Sharing: A Practical Approach

The course provides insight of the fundamental concepts and principles of incident investigation process with a practical approach. Considering Human & Performance influencing factors at incident management, this course aims at optimizing the learning process following an incident.

By emphasizing the 5 principles of Human Performance, differences and essence of fail lucky Vs fail safe, this course aims at the empowerment of safety culture as well as the essential skills of people involved to an effective incident investigation and analysis that targets to reduce further emerging risks and avoid reoccurrence of unsafe acts or behaviors, by suggesting the most applicable preventive actions.
