

WEBINAR LECTURERS

**Lefteris
KOUKOULOPOULOS**

Regional Decarbonization
Specialist for Region South East
Europe, Middle-East and Africa
DNV

Regional Decarbonization Specialist at DNV, based in Piraeus, Greece, with 6 years of experience in the Advisory unit. Initially focused on technical projects around energy efficiency and environmental regulations (EEXI, CII, etc.), including simulation of complex ship energy systems using DNV COSSMOS (mainly for LNG carriers).

Since 2023, transitioned into a business development role, leading DNV's decarbonization services in the local market— including regulatory services MRV/DCS/ Fuel EU and actively promoting Emissions Connect, DNV's digital platform for managing and verifying maritime GHG emissions data.

**Konstantinos
SAKELLARIOU**

Lead Shipping Auditor and
Product Manager
EMICERT

Mr. Konstantinos Sakellariou is the Lead Shipping Auditor and Product Manager at EMICERT LTD., where he is responsible for verifying annual emissions reports and assessing monitoring plans in accordance with EU Regulations 2015/757, 2023/1805, and MARPOL Annex VI (Regulation 22A). He has worked with a range of shipping companies in Greece and internationally, contributing to their compliance with environmental standards.

Mr. Sakellariou holds a degree in Mechanical and Aeronautical Engineering from the University of Patras and an MSc in Marine Engineering from the University of Newcastle. His previous experience includes technical roles at STAMCO Shipmanagement Co. Ltd. and Benelux Overseas Inc., where he developed a solid foundation in maritime operations and engineering.
