Mr. Panagiotis Papageorgiou born in 1984 in Patras, Greece is a Chemical Engineer and certified Marine Chemist.

He received his Diploma in Chemical Engineering in 2011. In 2016 he completed extensive training and was certified as a Marine Chemist. In 2017 he co-founded Polaris Consulting Engineers (PCE) company providing high quality services to maritime companies. He is also a Certified Asbestos Surveyor (2015), Approved HazMat Expert (2017) and certified for Maintenance of Gas Surveyor 500 series – GMI Ltd.

In PCE he is responsible for Gas-free issuance, Gas detectors maintenance and calibration and he is Manager of the Environmental department (IHM, Waste Management, BWMS surveys).

Mr. Kourounis is a Chemical Engineer (MSc) from the National Technical University of Athens (NTUA), with postgraduate studies in Business Administration. He currently serves as Business Development Manager – Learning Services & Safety Engineer, and HSQE Lead at Vanos SA. Since 1993, he has held various commercial and technical positions in multinational and local companies, as well as working independently as a consultant and technical study author.

With over 15 years of experience in H&S education, consulting, and auditing, Mr. Kourounis has delivered more than 3,000 training hours to trainers, engineers, and workers. He is a member of the Hellenic Technical Chamber, the Hellenic Institute of Marine Technology, and the Hellenic Adult Education Association.

He has also contributed as a creator and lecturer in numerous safety training programs, and is the co-originator of the technical course “3M Science of Safety Expert”, certified by TÜV HELLAS (TÜV NORD).
