WEBINAR LECTURER

Capt. Zacharias
VAIRAMAKIS

Safety & Quality
Manager
THENAMARIS

Captain Vairamakis serves as the Safety & Quality Manager at Thenamaris, bringing extensive expertise in safety management, seafarer training, quality assurance, and human factors initiatives.

With a distinguished maritime career, his previous shore-based roles included Marine Superintendent, overseeing tanker fleet operations, Marine Safety & Vetting Advisor, and Safety Development Officer. Prior to his shore-based positions, he spent many years at sea as Master Mariner on oil and chemical tankers.

Captain Vairamakis is a graduate of the Marine Academy of Kefalonia and holds an Executive Certificate in Shipping & Maritime Studies from ALBA Graduate Business School. Additionally, he has earned a Professional Certificate in Business Analytics from National and Kapodistrian University of Athens.

CONTENT OVERVIEW

Understanding the principles of PSC inspections

By the end of the session the attendees will be able to:

- Understand the purpose, legal framework and evolution of PSC
- Identify common PSC focus areas and detention risks
- Recognize how PSC inspections impact our business in terms of safety, reputation and commercial readiness
- Differentiate between PSC, Vetting and other inspection types
- Apply practical preparation and inspection-handling best practices onboard
- Improve vessel readiness, through proactive maintenance, crew competence, and compliance culture
