Developed through a bottom-up methodology, where both seafarers and office personnel contributed their insights, needs, and expectations via surveys, focus groups, and expert research, all integrated into a dynamic, interactive course

24 essential soft skills, each carefully selected to support growth, resilience, and success in the maritime industry

MODULE 1: EXPLORING SOFT SKILLS & STRENGTHS

- Introduction to Soft Skills
- The Updated Definition of Strengths
- Identifying Personal Strengths and Soft Skills
- Leveraging Strengths and Soft Skills for Growth

MODULE 2: THE SOFT SKILLS TOOLKIT

- Set I: Must have Soft Skills for Today's Professionals
- Set II: Bridging the Soft Skills Gap in the Maritime Sector
- Closing Session: Sustainable Self-Coaching

Each skill will be explored beginning with a clear definition, its importance supported by relevant research and data, and the key characteristics of individuals who excel in it

Each module keeps participants engaged through discovery, Q&As, and peer sharing, blending scientific insights and practical examples to validate each essential skill

Case studies with real-world examples, interactive activities such as role-playing and peer-sharing, and tips for hands-on application will further enhance practical understanding and engagement
