

WEBINAR

22 July 2026 | 10.00 - 12.00 EEST

Digital Awareness and Cybersecurity in Shipping

- | | |
|---------------|--|
| 10.00 - 10.05 | Welcome – Intro to METAVASEA
HELMEPA |
| 10.05 - 10.55 | Changing the mindset to embrace emerging technologies
Oriani
Combuss Business Consultants |
| 10.55 - 11.00 | Break |
| 11.00 - 11.50 | Cybersecurity awareness: tools and best practices to minimize cyber threats
Metrostar Management Corp.
Hellas Confidence Shipmanagement |
| 11.50 - 12.00 | Q&A |

Addressed to crew officers (deck & engine) and office personnel of HELMEPA Member companies

Level of knowledge

Beginner to Intermediate

Participants will receive a HELMEPA Academy Certificate of Attendance

WEBINAR OUTLINE | LEARNING OBJECTIVES

Changing the Mindset to Embrace Emerging Technologies

This seminar will point out some of the key applications of emerging technologies and discuss the benefits they produce.

It will also touch on the difficulties we humans have in change and give specific examples on how to facilitate the change of mindset in the Maritime Digital Transformation era.

Learning Objectives:

- Increase awareness of Maritime Digital Transformation.
- Give participants some practical guidance on how to become part of this change.

Cybersecurity awareness: tools and best practices to minimize cyber threats

Attendees will gain insight into the latest cyber threats and trends affecting the maritime industry, such as the use of IoT devices and the increasing prevalence of ransomware attacks, as well as new technologies and strategies for mitigating these risks.

Learning Objectives:

- Participants will learn best practices for securing shipboard systems against cyber attacks and training crew members on cyber security awareness.
- Attendees will gain an understanding of the regulatory requirements for maritime cyber security and the potential consequences of noncompliance.
