

WEBINAR

15 October 2026 | 10:00 - 12:00 EEST

STS and Mooring operations

10.00 - 10.50 **Key Safety Aspects of Ship-To-Ship Operations**
DYNAMARINE

10.50 - 11.00 Break

11.00 - 11.50 **Safe Mooring Operations According to Latest IMO SOLAS Regulations and OCIMF MEG4 Guidelines**
Katradis Marine Ropes Industry

11:50 - 12:00 Q&A

Addressed to crew officers (deck & engine) and office personnel of HELMEPA Member companies

Level of knowledge

Beginner to Intermediate

Participants will receive a HELMEPA Academy Certificate of Attendance

WEBINAR OUTLINE | LEARNING OBJECTIVES

Key safety aspects of STS operations

By the end of this session, participants will be able to acknowledge:

- Ship-to-Ship (STS) transfers, and what are the main categories of cargo involved
- Relevant legislation and/or best practices associated with STS operations
- Primary reasons for STS transfers between bulk carriers, and in which areas are these operations most frequent
- Main differences between STS operations involving tankers and those involving bulk carriers
- Key risks associated with STS operations on bulk carriers, and what are the most significant accidents recorded

- Procedures and preparations required from shipowners and charterers to ensure the safe execution of STS operations

Safe mooring operations according to latest IMO SOLAS regulations and OCIMF MEG4 guidelines

By the end of this session, participants will:

- Be able to comply with marine industry standards and guidelines
- Have enhanced awareness regarding rope performance characteristics and proper usage
- Understand the risks during handling of mooring ropes
